Annex

E-vaporisers are illegal in Singapore. Under the Tobacco (Control of Advertisements and Sale) Act, the possession, use or purchase of e-vaporisers carries a maximum fine of \$2,000. It is also an offence to import, distribute, sell or offer for sale e-vaporisers and their components. Any person convicted of such offences is liable to a fine of up to \$10,000, or imprisonment of up to six months or both for the first offence, and a fine of up to \$20,000, or imprisonment of up to 12 months or both for the second or subsequent offence. All prohibited tobacco items will be seized and confiscated.

MOE takes a firm stand against vaping. Vaping is categorised as a serious offence. When students are caught using or in possession of e-vaporisers, the prohibited product will be confiscated and their parents will be informed. The schools will report the offender to HSA and also manage vaping-related offences through existing disciplinary frameworks. These include taking school-based disciplinary actions, such as suspension or caning (for boys). Students caught vaping will also be placed on cessation support programmes where counsellors will guide them through their cessation journey to effect long-term behavioural change.

Parents have an important part to play in their children's education. There are resources and relevant information that parents can access on Parent Hub. Parents are encouraged to have a serious conversation with their children about vaping to prevent it from becoming a life-long habit. More information about the harms of vaping is available on Parent Hub at <https://go.gov.sg/parent-hub-vaping>.
